Madurai ,Tamil Nadu

[linkedin.com/in/viswanth](https://www.linkedin.com/in/viswanth)

Motivated fresher with a strong interest in artificial intelligence and emerging technologies, experienced in building AI-driven applications . Passionate about continuous learning, innovation, and creating scalable digital solutions that blend technology, design, and business impact.

Skills

Technical Skills

- UI/UX Design &
- User-Centered Design
- Generative AI Application Sector
- AI Model & Development
- High-Fidelity Prototyping

Tools

- Figma
- Adobe XD
- Canva
- Google Analytics
- Google Search Console
- Meta Ads Manager

Area of Expertise

- UI/UX Design for Web & Mobile Applications
- AI-Powered Product Design & Development
- Generative AI Solutions for Business Use Cases
- User-Centric design & design thinking

Language : Python (AI and ML)

Additional Information

Languages - English, Tamil

Awards& Leadership:-

- RYLA 2025 Winner – Best Leader
- Elected Joint Secretary – Cloud Nexus Club , KCET
- Conducted 7+ major events, including symposiums, hackathons, and tech stalls
- Workshops Conducted: Delivered UI/UX Design workshops on Figma and Canva, training students in wireframing, prototyping, and modern design workflows.

Key Achievements

- Secured Runner-Up (2nd Place) at FinTech Event, Prathyusha Engineering College, winning ₹5,000, for Finguard AI—an AI-based fraud detection and AML compliance system with OCR onboarding.
- Won 2nd Prize at AI Hackathon, SRM Institute of Science and Technology, Ramapuram for Patient X, an AI + Blockchain platform for secure medical data sharing.
- Secured 4th Place at IEEE Ignite Project Expo, Kalasalingam Academy of Research and Education, winning ₹4,000, for a real-time collaborative coding platform.
- Awarded Best Problem Solver at BNI (Business Network International) event for analytical and solution-building skills.

Educational Background

Bachelor of Engineering–Computer Science and Engineering

Kamaraj College of Engineering and Technology

2023 – 2027 Current CGPA : 7.90

School

T.V.S School, Madurai

2011 – 2023 HSC : 70%

Work Experience

AI & ML Intern, Panith Innovations

June 2025

- Developed 10+ real-world projects, including a KCET learning chatbot, CNN-based fire detection system, and an e-learning platform with interactive AI-powered quizzes.
- Gained hands-on experience in AI, machine learning, and end-to-end product development across multiple domains.

Vinsup info tech

Jan 2026

- Working on UI/UX design project at Vinsup Info Tech, contributing to web and mobile application interface design.
- Designed user flows, wireframes, and high-fidelity mockups based on client and business requirements.
- Used Figma and AI-assisted design tools to create responsive and user-friendly interfaces.

Projects

Tribal Earth 360 – FRA Atlas & AI-Based DSS

Designed the UI for a WebGIS platform and developed AI models for DSS recommendations and an intelligent FRA chatbot. Worked on asset mapping, OCR/NER data processing, and interactive GIS layers to support tribal development.

Patient X - AI + Blockchain Medical Marketplace

Built a secure platform where patients upload and monetize medical data while researchers can access the patient data. Created the full UI/UX flow and integrated AI components for transparent, automated health-data transactions.

Pitchbase – AI Career Development Platform

Designed a full modern platform with AI mentor, roadmap generator, assessments, and resume builder using clean UI/UX and motion effects. Built interactive, user-focused pages with Lottie animations, smooth navigation, and a professional light theme.

Halleyx Custom Dashboard- Builder

Designed a drag-and-drop custom dashboard builder with configurable widgets (charts, tables, KPI cards), responsive grid layouts, and real-time updates, delivering an interactive and highly customizable data visualization experience.
